The service runs on all week days that the schools are officially open. Timings are subject to traffic and passengers should ensure they are at their pick up point before the pick up time. Because the service covers several schools it is not normally possible to run at a different time on the last day of term.

Once a place has been secured on the S1 service, renewal is guaranteed as long as renewal payments are made by the cut-off date each term, which will normally be three weeks after the renewal application forms are sent out.

Refunds for cancelled places are not normally available, unless we are able to re-sell the place to somebody on the waiting list.

We do not normally offer reduced fares for less frequent travel, with the exception of the summer term for GCSE and A level students who have previously paid full fare for at least two terms.
